

Changing Dynamics of the Global Outlook in Polymers

Pandemic, war, energy shortages and feedstock market dynamics underscore the need for creative and nuanced sustainable supply chain solutions. The ever more complex polymer industry challenges demand increasingly better and faster decision making. Don't miss the panel of experts who will discuss trends and trade strategies for regional risk management amidst global political and economic turmoil.

Sanjay Moolji is the Global Business Director of Tricon Energy Ltd for their Polymer business and the Global Product Director & Head for their polypropylene business based in Houston. He was General Manager for Exports of Reliance Industries for the Polymers Sector. He holds a degree in Economics and did Post-graduate studies in International Trade.

Ritesh Khotari is Director of Global Operations for Plastics Business and overseas Tricon India office. He joined Tricon in 2011 as Accounting Supervisor and later managed its Plastics Operation. Previously, he worked at Deloitte in their Financial Services Group. He lives in Houston since 2000. He holds a Master's Degree in Finance from Texas A&M University.

Michael Lacey received his B.S. degree in Chemistry from Texas A&M University and a Ph.D. from the University of Illinois at Urbana-Champaign. Mike joined ExxonMobil where he worked for 20 years in a variety of roles living in the U.S., Brazil, and Singapore. In January 2022, he joined Tricon Energy to launch its new Sustainable Products business line.

Moderator
